Mr. John Johnsen
Lockheed Martin Corporation
2550 North Hollywood Way
Suite 301
Burbank, California 91505

Dear Mr. Johnsen:

Enclosed, as requested, are five copies of the *Offsite Groundwater Characterization Workplan, Lockheed Martin Corporation Former International Light Metals Facility, Los Angeles, California*.

Comments on the draft version of this document prepared by the Department of Toxic Substances Control, the Regional Water Quality Control Board, and Lockheed Martin's consultant, ARCADIS Geraghty & Miller, have been incorporated into the revised document. Although no written comments from Lockheed Martin regarding the draft version of the report were presented to Integrated, comments regarding the list of constituents of concern and placement of proposed groundwater monitoring wells, as discussed in telephone conversations with Integrated staff members, have been incorporated.

Please feel free to contact me if you have any questions or if you require additional copies of the enclosed report.

Sincerely,

A handwritten signature in black ink, appearing to read 'JH', with a long horizontal stroke extending to the right.

Jim Hutchison
Project Manager

cc Mario Stavale (Boeing Realty Corporation)
 Derrick Willis (ARCADIS Geraghty & Miller, Inc.)
